

Fundamental Elements of Accessibility

Technical Assistance

- Educational materials will be created about how to accomplish the accessibility guidelines and strategies to outreach to clients with disabilities. The Coalitions will distribute materials through their monthly membership mailings.
- Three regional trainings will be facilitated in 2008 to inform DV and SA service providers about how to accomplish the FEA.
- A video will be developed about interacting with persons who have disabilities. The Coalitions will host the training video on their websites. Each DV and SA agency in NC will be mailed a copy of the video.
- A checklist will be available to assist local agencies with their implementation of the FEA and need for technical assistance.
- The Coalitions will provide technical assistance about the FEA to DV and SA agencies across NC. Agencies can call the Coalitions' toll-free numbers and ask questions about how to provide accessible services for clients with disabilities.
